

2017 honda accord hidden features

2017 honda accord hidden features make this midsize sedan stand out in a competitive market. Beyond its well-known reliability and stylish design, the 2017 Honda Accord offers a range of lesser-known amenities and technological innovations that enhance driver comfort, convenience, and safety. These hidden features are often overlooked by owners but provide significant value and improve the overall driving experience. This article explores some of the most notable 2017 Honda Accord hidden features, from advanced safety systems to subtle interior conveniences and tech enhancements. Understanding these features can help owners maximize their vehicle's potential and enjoy a more refined ride. The following sections will cover comfort and convenience features, technology and infotainment options, safety and driver assistance innovations, performance and handling upgrades, and additional practical benefits tucked away in this model.

- Comfort and Convenience Features
- Technology and Infotainment Enhancements
- Safety and Driver Assistance Innovations
- Performance and Handling Upgrades
- Additional Practical Benefits

Comfort and Convenience Features

The 2017 Honda Accord includes several hidden comfort and convenience features designed to elevate the driving experience. While many owners appreciate the spacious interior and quality materials, some subtle amenities often go unnoticed but contribute significantly to daily comfort.

Dual-Zone Automatic Climate Control

This feature allows the driver and front passenger to independently set their preferred temperature settings, ensuring personalized comfort on every trip. The system automatically adjusts airflow and temperature to maintain the chosen climate efficiently.

Smart Entry and Push-Button Start

Many 2017 Accord models come equipped with a keyless smart entry system that

allows drivers to unlock the doors without removing the key fob from their pocket or bag. Coupled with the push-button start, this convenience feature simplifies vehicle access and ignition.

Auto-Dimming Rearview Mirror

The auto-dimming rearview mirror reduces glare from headlights of trailing vehicles at night. This subtle enhancement improves nighttime driving safety and comfort by minimizing eye strain.

Hidden Storage Compartments

The Accord offers cleverly designed storage spaces that keep the cabin organized and clutter-free. These include:

- Under-floor storage in the trunk for tools or emergency kits.
- Center console with multiple compartments and a sliding armrest cover.
- Door pockets with bottle holders and additional space for small items.

Technology and Infotainment Enhancements

The 2017 Honda Accord incorporates advanced technology and infotainment features that many owners may not fully utilize. These hidden gems enhance connectivity, entertainment, and driving experience through intuitive controls and smart integration.

Apple CarPlay and Android Auto Support

Although not immediately obvious, the 2017 Accord supports both Apple CarPlay and Android Auto on compatible trims. These systems allow seamless smartphone integration, enabling drivers to access navigation, music, calls, and messaging safely through the vehicle's touchscreen.

HondaLink Smartphone App

HondaLink provides remote access to vehicle information and controls via a smartphone app. Features include remote start, lock/unlock functions, vehicle health reports, and roadside assistance, offering added convenience and peace of mind.

Multi-Angle Rearview Camera

The rearview camera offers multiple viewing angles—normal, wide, and top-down—to assist with parking and maneuvering in tight spots. This feature enhances safety and awareness but is often underutilized due to unfamiliarity.

Hidden Steering Wheel Controls

The steering wheel integrates numerous buttons that allow the driver to control audio, cruise control, phone calls, and voice commands without taking hands off the wheel. These controls promote safer and more convenient operation of the vehicle's systems.

Safety and Driver Assistance Innovations

Safety is a paramount focus for the 2017 Honda Accord, and the vehicle includes several advanced driver assistance systems that may not be immediately apparent. These hidden safety features contribute to accident prevention and driver confidence.

Honda Sensing Suite

Available on higher trims, the Honda Sensing suite includes a comprehensive set of safety technologies such as:

- Collision Mitigation Braking System (CMBS)
- Road Departure Mitigation System (RDM)
- Adaptive Cruise Control (ACC) with Low-Speed Follow
- Lane Keeping Assist System (LKAS)

These systems work together to detect potential hazards, maintain safe distances, and keep the vehicle centered in its lane.

Blind Spot Information System

This feature uses radar sensors to monitor blind spots and alerts the driver with visual indicators on the side mirrors when a vehicle is detected. It enhances lane-changing safety, especially on busy highways.

Rear Cross Traffic Monitor

When reversing out of parking spaces, this system detects approaching vehicles from the sides and warns the driver audibly and visually. It is particularly helpful in crowded parking lots or tight spaces.

Performance and Handling Upgrades

Beyond its smooth ride and fuel efficiency, the 2017 Honda Accord includes subtle performance and handling features that contribute to a more engaging and controlled driving experience.

Eco Assist System

The Eco Assist system helps optimize fuel economy by adjusting engine and transmission settings based on driving habits. The dashboard includes an “Eco” indicator that encourages efficient acceleration and braking.

Sport Mode and Paddle Shifters

On select trims, Sport Mode enhances throttle response and steering feel for a more dynamic driving experience. Paddle shifters mounted behind the steering wheel allow manual gear changes without a clutch, giving the driver greater control.

Variable Gear Ratio Steering

This feature adjusts the steering ratio based on vehicle speed, providing lighter steering at low speeds for easier maneuvering and firmer, more precise control at higher speeds.

Additional Practical Benefits

The 2017 Honda Accord is packed with practical features that improve usability and everyday convenience, many of which are not immediately obvious but add significant value to owners.

Trunk Release from Inside the Cabin

A hidden trunk release lever located near the driver’s seat allows quick access to the trunk without exiting the vehicle, useful for loading or unloading in inclement weather.

Automatic Headlights and Wipers

The Accord is equipped with sensors that automatically turn headlights on or off depending on ambient light conditions and activate windshield wipers when rain is detected, enhancing safety and convenience.

Hands-Free Power Tailgate

On certain trims, the power tailgate can be opened or closed using a button inside the cabin or the key fob, facilitating easier loading and unloading of cargo.

Seat Memory Settings

The driver's seat memory feature stores preferred seating positions for multiple drivers, enabling quick and effortless adjustments to comfort settings.

Frequently Asked Questions

What is the secret way to access the Honda Accord 2017's hidden display settings?

To access hidden display settings on the 2017 Honda Accord, press and hold the 'Menu' button on the infotainment system, then select 'System Settings' to reveal additional customization options.
