Overview of Academic Programs

Georgian Court University majors span a broad spectrum of disciplines, reflecting the institution's commitment to providing a well-rounded and adaptable education. The university offers undergraduate and graduate degree programs across multiple schools, including the School of Business, School of Arts and Sciences, and School of Education and Human Services. Each academic program is designed to integrate theoretical knowledge with practical application, fostering critical thinking, ethical reasoning, and professional skills. Students benefit from small class sizes, experienced faculty, and a supportive learning environment. The majors cater to students aiming for careers in various sectors such as healthcare, education, business, social services, and technology.

Business and Management Majors

The business programs at Georgian Court University focus on developing leadership, strategic thinking, and operational skills required in today's competitive market. These majors prepare students for dynamic roles in corporate, nonprofit, and entrepreneurial settings.

Bachelor of Science in Business Administration

This major provides a comprehensive foundation in business principles, including finance, marketing, management, and accounting. Students learn to analyze business environments, make data-driven decisions, and lead teams effectively.

Specializations and Electives

Within the business administration major, students can choose electives or concentrations such as:

- Marketing
- Accounting
- Finance
- Human Resource Management
- Entrepreneurship

These options enable students to tailor their education to specific career paths and industry demands.

Health Sciences and Nursing

Health-related majors at Georgian Court University are designed to meet the growing demand for qualified healthcare professionals. The university offers rigorous programs that combine science coursework with clinical experiences.

Bachelor of Science in Nursing (BSN)

The BSN program is accredited and prepares students for the Registered Nurse (RN) licensure exam. The curriculum covers anatomy, physiology, pharmacology, and patient care, along with hands-on clinical rotations in diverse healthcare settings.

Health Science Major

This major focuses on the scientific and administrative aspects of healthcare. Students study public health, health promotion, and healthcare management, preparing for roles in hospitals, clinics, and community health organizations.

Liberal Arts and Social Sciences

Georgian Court University majors in the liberal arts and social sciences emphasize critical inquiry,

cultural understanding, and communication skills. These programs nurture intellectual curiosity and ethical awareness.

Psychology

The psychology major explores human behavior, cognitive processes, and mental health. It prepares students for careers in counseling, social work, or further graduate study in psychology or related fields.

Communication Studies

This major develops proficiency in media, interpersonal communication, and organizational communication. Graduates are equipped for careers in public relations, marketing, and corporate communications.

English and Literature

Students majoring in English study literature, writing, and critical theory. The program enhances analytical and writing skills applicable to education, publishing, and media professions.

Science and Technology Majors

The university offers majors that foster scientific inquiry and technical expertise, preparing students for careers in research, healthcare, technology, and environmental fields.

Biology

The biology major covers cellular biology, ecology, genetics, and microbiology. It is designed for students interested in medical, research, or environmental science careers.

Computer Science

This program teaches programming, software development, and systems analysis. Graduates are prepared to work in IT, software engineering, and technology consulting.

Environmental Science

The environmental science major addresses issues related to sustainability, conservation, and environmental policy. Students engage in fieldwork and laboratory research to tackle real-world ecological challenges.

Education and Human Services

Georgian Court University majors in education and human services prepare students to impact communities through teaching, counseling, and social support roles.

Elementary and Secondary Education

These programs prepare students for state certification as teachers. Coursework includes pedagogy, curriculum development, and classroom management, combined with student teaching experiences.

Human Services

The human services major trains students to work in social work, counseling, and community outreach. Emphasis is placed on helping vulnerable populations and advocating for social justice.

Unique Interdisciplinary Programs

In addition to traditional majors, Georgian Court University offers interdisciplinary programs that integrate multiple fields of study to address complex societal and professional challenges.

Business Analytics

This program combines business knowledge with data analysis skills. Students learn to interpret data to inform strategic decisions in various industries.

Psychology and Behavioral Health

An interdisciplinary major focusing on mental health, behavioral science, and therapeutic techniques. It prepares students for careers in counseling and behavioral health services.

Digital Media and Design

This major merges technology, creativity, and communication, covering graphic design, multimedia production, and digital marketing strategies.

- Comprehensive curriculum integrating theory and practice
- Small class sizes fostering personalized learning
- Experienced faculty with professional expertise
- Opportunities for internships and hands-on experience

- Strong focus on ethical leadership and community engagement
