- Career Overview and Fight Record
- Striking Statistics
- Grappling and Submission Data
- Significant Achievements and Records
- Performance Trends and Analysis

Career Overview and Fight Record

Jim Miller's UFC journey spans over a decade, making him one of the most experienced competitors in the lightweight division. Since his debut in the UFC, Miller has compiled an extensive fight record characterized by numerous wins, losses, and a high volume of fights. His consistency and ability to stay active have contributed to his reputation as a durable and versatile fighter.

Overall Fight Record

As of the latest recorded data, Jim Miller holds a professional MMA record consisting of wins, losses, and no contests. His UFC-specific record includes a significant number of victories by knockout, submission, and decision, showcasing his well-rounded skill set.

- Total UFC fights: Over 35
- Wins: More than 20
- Losses: Approximately 15
- Methods of victory: Knockouts, submissions, and decisions

Fight Frequency and Activity

Miller is notable for his high fight frequency, often competing multiple times per year. This activity level ranks him among the most active fighters in UFC history. His willingness to face top contenders regularly highlights his competitive spirit and resilience.

Striking Statistics

Striking is a critical component of Jim Miller's fighting style, complementing his grappling and submission capabilities. His offensive and defensive striking statistics provide insight into his effectiveness during stand-up exchanges.

Significant Strikes Landed

Jim Miller averages a notable number of significant strikes landed per minute, reflecting his aggressive pace and volume striking approach. His striking accuracy and ability to maintain pressure contribute to his success in controlling the fight tempo.

Striking Accuracy and Defense

Miller's striking accuracy is a key metric that illustrates his precision when engaging opponents. Additionally, his defensive striking stats, including strike absorption rate and evasion, demonstrate his experience in mitigating damage over extended fights.

- Average significant strikes landed per minute: Approximately 3-4
- Striking accuracy percentage: Around 40-45%
- Significant strikes absorbed per minute: Approximately 3
- Strike defense rate: Near 50%

Grappling and Submission Data

Grappling forms the cornerstone of Jim Miller's competitive strategy. His submission skills and takedown ability have secured many of his wins and remain a threat to his opponents throughout his career.

Takedown Statistics

Miller's takedown average per 15 minutes and his takedown accuracy highlight his ability to bring fights to the mat. His defensive takedown stats also reflect his competency in thwarting opponent's

attempts to control the fight on the ground.

Submission Wins and Techniques

Jim Miller is renowned for his submission arsenal, particularly his proficiency in securing rear-naked chokes and guillotine chokes. His submission win count places him among the leaders in UFC lightweight history for finishes by submission.

- Average takedowns landed per 15 minutes: About 1
- Takedown accuracy: Roughly 40%
- Submission wins: Over 10 in UFC competition
- Common submission techniques: Rear-naked choke, guillotine choke

Significant Achievements and Records

Throughout his tenure in the UFC, Jim Miller has earned numerous accolades and set records that underscore his importance to the organization and the sport.

UFC Records

Miller holds multiple UFC records, including one of the highest numbers of fights and wins in the lightweight division. His longevity and consistent performance have earned him recognition as a durable and reliable competitor.

Awards and Honors

Jim Miller has received performance bonuses for his exciting fighting style and ability to finish fights. These awards highlight his contribution to some of the most memorable bouts in UFC history.

- Most UFC lightweight wins (tied or near the top)
