- Pediatrics – specialized care for infants, children, and adolescents

Emergency and Urgent Care

The hospital maintains a fully staffed emergency department capable of handling critical situations 24/7. Emergency medical professionals provide rapid assessment, stabilization, and treatment for trauma, cardiac events, strokes, and other urgent medical conditions. Additionally, urgent care services accommodate non-life-threatening issues requiring prompt attention.

Facilities and Technology

KY Mountain Health Pikeville KY is equipped with modern medical technology and facilities designed to enhance diagnostic accuracy and treatment efficacy. Investment in advanced equipment reflects the hospital's dedication to delivering state-of-the-art healthcare services.

Diagnostic Imaging

The hospital offers comprehensive imaging services, including digital X-rays, MRI, CT scans, and ultrasound. These diagnostic tools aid physicians in precise disease detection and monitoring, facilitating timely and accurate treatment plans.

Surgical Suites

Specialized operating rooms feature the latest surgical technology to support a wide range of procedures, from minimally invasive surgeries to complex operations. The surgical team benefits from advanced anesthesia systems and monitoring devices to optimize patient safety.

Patient Rooms and Amenities

KY Mountain Health provides comfortable patient rooms equipped with modern amenities to promote healing and well-being. The facility prioritizes a clean, safe, and welcoming environment that supports both patients and their families during hospital stays.

Patient Care and Support Services

Comprehensive patient care at KY Mountain Health Pikeville KY extends beyond

medical treatment to encompass support services that enhance the overall healthcare experience. The hospital focuses on holistic care, addressing emotional, psychological, and social aspects of patient health.

Patient Education

Educational resources and counseling services empower patients to manage their health effectively. Topics include chronic disease management, medication adherence, nutrition, and lifestyle modifications to improve long-term outcomes.

Rehabilitation Services

Rehabilitation programs at KY Mountain Health involve physical therapy, occupational therapy, and speech therapy tailored to individual recovery needs. These services assist patients in regaining independence and improving functional abilities after illness or injury.

Support Groups and Counseling

The hospital offers support groups for patients coping with various conditions such as cancer, diabetes, and mental health challenges. Professional counseling services are also available to help patients and families navigate emotional difficulties associated with illness.

Community Outreach and Health Programs

KY Mountain Health Pikeville KY actively participates in community outreach initiatives aimed at promoting public health and disease prevention. These efforts reinforce the hospital's role as a community partner dedicated to improving regional health standards.

Health Screenings and Wellness Events

The hospital organizes regular health screenings for blood pressure, cholesterol, diabetes, and other conditions. Wellness events focus on educating the public about healthy lifestyles, nutrition, exercise, and preventive care.

Collaborations and Partnerships

KY Mountain Health collaborates with local organizations, schools, and government agencies to expand access to healthcare services and health

education. These partnerships enhance the hospital's capacity to address social determinants of health and improve community well-being.

Volunteer Programs

Volunteer opportunities at KY Mountain Health allow community members to contribute to patient support, hospital operations, and outreach activities. Volunteers play a crucial role in fostering a compassionate and supportive healthcare environment.

1. Comprehensive medical and specialty services
2. State-of-the-art diagnostic and surgical technology
3. Holistic patient care including education and rehabilitation
4. Active community involvement and preventive health programs
5. Accessible location with patient-friendly amenities
