It is considered part of the apocryphal or pseudepigraphal literature, meaning it is not included in most canonical biblical texts but has significant historical and religious value. The text is notable for its elaborate descriptions of angels, the fallen watchers, cosmic journeys, and prophecies concerning the end times. Understanding the book of Enoch online free provides access to a text that influenced early Christian and Jewish thought, especially concerning angelology and eschatology.

Origins and Language

The original book of Enoch was written in the ancient Ethiopian language Ge'ez, although the earliest fragments date back to Aramaic and Hebrew manuscripts found among the Dead Sea Scrolls. The text is estimated to have been composed between the 3rd century BCE and the 1st century CE. The survival of the book in Ge'ez is largely due to its acceptance into the Ethiopian Orthodox Church canon, where it remains authoritative.
